Janai Adams

UX Researcher & Designer | Mixed-Methods Research | Data Analytics

Ann Arbor, Michigan | Portfolio Link | linkedin.com/in/janaiadams | janaiadams23@gmail.com

EDUCATION

University of Michigan School of Information, Ann Arbor, MI **April 2026**
Master of Science in Information (MSI); Focus in User Experience (UX) Research and Design

Texas State University McCoy College of Business, San Marcos, TX **May 2023**
Bachelor of Business Administration (BBA) in Marketing; Minor in Philosophy

RELEVANT PROJECT EXPERIENCE

UX Researcher & Designer, "**HabitFlow" Application Design Project**, Ann Arbor, MI **January 2026 - May 2026**

- Conducted surveys, interviews, and usability testing with 20+ users to identify gaps in existing habit-building apps and define research-backed design requirements.
- Designed HabitFlow, a mobile app focused on long-term habit formation through intelligent goal-setting (AI), habit stacking, gradual notification reduction, and personalized motivation.
- Translated research findings into functional specifications and user flows to develop a user-centered product concept with features tailored to different user motivations.
- Iterated on the prototype based on usability findings, improving navigation, content clarity, touch targets, and overall flow for a more intuitive experience.

UX Research Consultant, **SampleServe Usability Research Project***,* Ann Arbor, MI **January 2024 - April 2024**

- Conducted a heuristic evaluation and competitive comparative analysis of SampleServe's platform to benchmark usability against industry standards and surface improvement opportunities.
- Wrote research protocols and led moderated usability testing and task analysis sessions with 6 participants to evaluate core workflows and identify pain points.
- Synthesized findings from the heuristic evaluation, competitive analysis, and usability testing into a comprehensive report with actionable recommendations.
- Presented findings and recommendations directly to 2 key stakeholders, translating research insights into prioritized next steps.

PROFESSIONAL EXPERIENCE

UX Consultant, **Early-Stage Startup**, Ann Arbor, MI **January 2026 - May 2026**

- Translated stakeholder needs into functional requirements by analyzing existing designs and workflows, resulting in a more complete and implementation-ready mobile application.
- Built a functional mobile prototype in Xcode using Figma, Pencil.dev, and Claude Code, enabling a successful transition from static designs to a working codebase.
- Identified and resolved gaps in user flows through iterative testing and refinement, resulting in improved usability and a smoother end-to-end experience.
- Supported feature implementation, validation, and technical documentation (setup guides, launch materials), ensuring alignment with user needs and smooth handoff.

Communications Assistant, **Flowersong Press**, Remote **August 2022 - December 2024**

- Increased engagement and event visibility by managing social media accounts and designing promotional content.
- Collaborated with team members to align marketing content with company branding and publishing schedules.
- Improved audience reach and interaction by monitoring feedback and iterating on content strategy based on performance insights.

Project Manager & UX Researcher, **i3 Inclusion Institute (Internship)**, Austin, TX / Remote **June 2022 - August 2023**

- Synthesized 324+ articles via semi-structured literature review and thematic analysis, identifying three key research themes with findings accepted and published as a poster at iConference 2023.
- Conducted virtual and in-person participant interviews, developed interview protocols, and accurately transcribed audio recordings to support qualitative data analysis.
- Coordinated team activities, meetings, and project deadlines across multiple time zones, ensuring smooth project progression.

SKILLS

UX Research: User Interviews, Surveys, Contextual Inquiry, Usability Testing, UAT, Accessibility Testing, Competitive Analysis, Personas & Scenarios **Design**: Wireframing & Prototyping, UI Design, Information Architecture & Sitemaps, User Flows & Process Mapping, Figma, Photoshop **Data & Technical**: SQL, HTML/CSS, Qualitative & Quantitative Data Analysis, Data Visualization (Excel), Data Cleaning **Tools & Collaboration**: Jira, Miro, Agile/Scrum, Stakeholder Communication, Presentation & Storytelling, Microsoft Office, Team Leadership, Training & Onboarding
